

We're here to help you save

Medtipster partners with your employer or health plan to ensure you get the medications you need at the best price.

How to Use This Document

This formulary list helps you determine which medications are covered by your plan and identify lower-cost options, when available. Use the key below to understand the listing:

BRAND-NAME DRUGS are listed in CAPITAL letters.

Generic drugs are listed in lower case letters.

To maximize savings, look to lowercase options.

If your medication is not listed, talk to your doctor about switching to a covered alternative.

Medtipster Formulary Marketplace — Flex

The following is a list of commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription plan. Inclusion on the list does not guarantee coverage.

The following list is not a complete list of over-the-counter [OTC] products and prescription medical supplies that are on the formulary. The only OTC products and prescription medical supplies that appear on the list are in contracted classes.

PLEASE NOTE: Brand-name drugs may move to nonformulary status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your prescription plan. For specific questions about your coverage, please call the phone number printed on your member ID card.
