

LUCYRX CLIENT PORTAL OVERVIEW

Your prescription care information, all in one place.

Getting answers shouldn't require multiple emails, multiple systems, or multiple phone calls.

The LucyRx client portal gives you a simpler way to access the information and resources you use most often, helping you stay informed, find answers faster, and spend less time tracking things down.

What you'll find in the portal

Faster access to information

View member details, claims activity, and important documents from a single location.

Greater visibility

Stay informed with access to key program information, including eligibility updates, accumulator activity, and data exchange status.

Easier day-to-day management

Access reference materials, and day-to-day resources without extra back-and-forth.

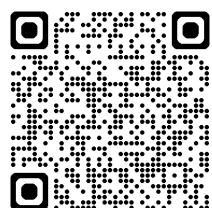

Secure by design

Role-based access helps users see the information they need for their role while helping protect sensitive data.

Portal highlights

- Client dashboard for quick access to key resources and tools
- Member profile view with eligibility, accumulators, and claims history
- Claims search & review
- Data exchange health monitoring
- Information center for documents and communications

Ready to get started?

Create your client portal account to access the information and resources you use most. **Scan to register, or visit client.lucyrx.com**
