# You will start seeing the LucyRx name

**Starting July 1, CerpassRx communications and materials will move to the LucyRx name. Your prescription coverage is not changing.**

**LucyRx acquired CerpassRx in October. Since then, our teams have been working together to support your prescription coverage and care.**

## What stays the same:

- Your prescription coverage stays the same
- Your medications stay the same
- You can keep using the same pharmacy, as long as it is in your plan's network
- Support is still here for you
