

We're here to help you save

LucyRx partners with your employer or health plan to ensure you get the medications you need at the best price.

How to Use This Document

This formulary list helps you determine which medications are covered by your plan and identify lower-cost options, when available. Use the key below to understand the listing:

- P** Preferred Drug: Covered medication with the most favorable benefit coverage.
- NP** Non-preferred Drug: Covered medication that may have higher member cost-sharing or preferred alternatives available.
- NC** Non-covered Drug: Medication is not covered under the plan.
- SP** Specialty Drug: Medication designated as a specialty drug.
- PA** Prior Authorization Required: Coverage requires prior approval.
- QL** Quantity Limit Applies: Coverage is limited to a specified quantity.

BRAND-NAME DRUGS are listed in CAPITAL letters.
Generic drugs are listed in lower case letters.

To maximize savings, look for P medications whenever possible.
If your medication is listed as NP or NC, talk with your doctor about available preferred or covered alternatives. If a medication includes PA, QL, or SP, additional coverage requirements or specialty pharmacy provisions may apply.

Costs for covered alternatives may vary.
