We're here to help you save

LucyRx partners with your employer or health plan to ensure you get the medications you need at the best price.

LucyRx Formulary Marketplace — Select

The following is a list of drugs covered on your plan's base formulary. Final coverage is subject to your specific plan benefits, so inclusion on this list does not guarantee coverage.

How to Use This Document

This formulary list helps you determine which medications are covered by your plan and identify lower-cost options, when available. Use the key to the right to understand the listing.

To maximize savings, look for P medications whenever possible. If your medication is listed as NP or NC, talk with your doctor about available preferred or covered alternatives. If a medication includes PA, QL, or SP, additional coverage requirements or specialty pharmacy provisions may apply.

PLEASE NOTE: Brand-name drugs may move to nonformulary status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your prescription plan. For specific questions about your coverage, please call the phone number printed on your member ID card.

KEY

P Preferred Drug: Covered medication with the most favorable benefit coverage.

NP Non-preferred Drug: Covered medication that may have higher member cost-sharing or preferred alternatives available.

NC Non-covered Drug: Medication is not covered under the plan.

SP Specialty Drug: Medication designated as a specialty drug.

PA Prior Authorization Required: Coverage requires prior approval.

QL Quantity Limit Applies: Coverage is limited to a specified quantity.

Brand-name drugs are listed in CAPITAL letters.
Example: ABILIFY MAINTENA

Generic drugs are listed in lowercase letters.
Example: ibuprofen

Costs for covered alternatives may vary.
